IGA at a Glance

IGA Journey

• Cons:

- Usually painful
- Tends to last forever
- Might be expensive
- Pros:
 - Automation
 - Compliance
 - Risk management
 - Data and process cleanup
 - Visibility

Evolveum

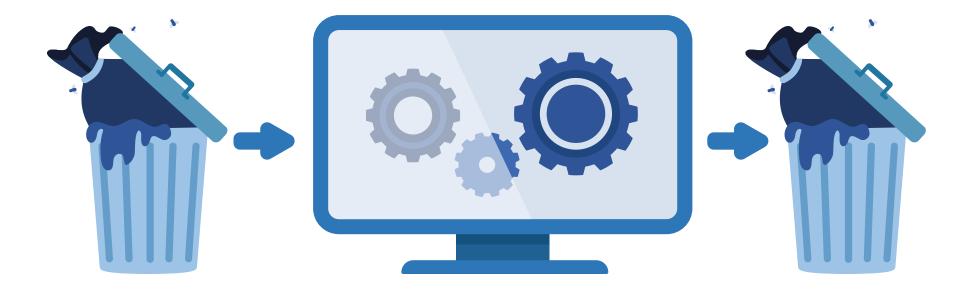

Know Your Environment

- What naming convention do you use for logins?
- What kind of workflows exist?
- What are the rules for approval processes?
- Do you have any exceptions to processes?
- Are the same rules applied for all users?
- What should happen if...?

Data Quality

How can this be prevented?

How Can IGA See into the Future?

- Simulations
 - Which attributes will be changed?
 - Which permissions will be removed/added?
 - How many accounts will be deactivated?
 - How will rules be applied?
- See the future of identities
