# MidPoint Community Meetup 2025

## Connecting Minds, Empowering Identities

May 12 - 14, 2025 • Bratislava, Slovakia

Evolveum is organizing an in-person meeting featuring a comprehensive agenda with interactive workshops and sessions on identity governance & administration led by Evolveum's seasoned professionals, and engaging community discussions.

### Attending This Event Will Enable You To:

- **Enhance Your Skills:** Whether you're a beginner or an advanced user, the workshops and talks offer two streams: one for newcomers and another for those deepening their expertise.
- **Explore Advanced Features:** Gain insights into cutting-edge midPoint functionalities like role mining and entitlement management. Connector development will also be discussed.
- **Optimize Your Deployments:** Learn how to efficiently perform a simplified midPoint deployment and improve deployment performance.
- **Facilitate Compliance:** Understand how midPoint can help with regulatory compliance and streamlining identity governance processes.
- **Stay Ahead:** You will be introduced to upcoming features and midPoint's roadmap to prepare for future trends and updates.

### Who Should Attend:

We invite CIOs, CTOs, integration and security specialists, IGA engineers, compliance professionals, and IT operations teams with responsibilities or involvement in the following areas:

- Aligning IGA with organizational goals
- Improving solution architecture
- Ensuring seamless integrations
- Optimizing identity workflows
- Managing daily IGA operations
- Aligning with regulatory standards

### Topics You Can Look Forward To:

- Why MidPoint? Unveiling the Core Advantages of the Platform
- Regulatory Compliance with MidPoint
- Performance Tuning of Deployments
- CI/CD with MidPoint
- Tinder in Identity Security: Swipe Right for Unmatched Accounts
- Thinking in MidPoint
- User-Defined Conditional Roles via GUI
- And much more

**Evolveum**

# Agenda: May 12 (Monday)

**Event Start**  
8AM - 9AM

**Registration & Coffee**

## Workshops

9AM - 10:15AM

### Interactive Workshops Led by Evolveum Experts

#### First Steps Methodology

Learn how to perform a simplified midPoint deployment. Ivan will guide you through quick steps to deploy simple midPoint configurations, including connecting the first resources.

**Ivan Noris**

Evolveum's Expert Identity Engineer

#### Role Mining

Explore role mining, analyze access patterns, and transform data into optimal business roles using midPoint's capabilities.

**Tadeáš Chrapovič**

Evolveum's Java Developer

## Break

10:15AM-10:45AM

**Coffee Break**

## Workshops

10:45AM - 12PM

### Continuation of the Interactive Workshops Led by Evolveum Experts

#### First Steps Methodology

Learn how to perform a simplified midPoint deployment. Ivan will guide you through quick steps to deploy simple midPoint configurations, including connecting the first resources.

**Ivan Noris**

Evolveum's Expert Identity Engineer

#### Role Mining

Explore role mining, analyze access patterns, and transform data into optimal business roles using midPoint's capabilities.

**Tadeáš Chrapovič**

Evolveum's Java Developer

## Lunch

12PM - 1PM

**Lunch Break**

## Session Opening

1PM - 1:15PM

### Opening of the Stream 1:

#### Introduction to IGA & MidPoint

**Chair of the Day: Igor Farinič**

Evolveum's Chief Executive Officer

### Opening of the Stream 2:

#### Advanced MidPoint Users

**Chair of the Day: Katarína Bolemant**

Evolveum's Chief Product Officer

## Sessions

1:15PM - 1:45PM

### How to Add Custom Attributes

Learn how to easily add custom attributes for different types in midPoint. We'll only be working in the GUI, so we don't need to know the structures of stored schemas.

**Lukáš Škublík**

Evolveum's Frontend Development Leader

### Use the Studio Luke

Viliam will show you how to make your life easier with a few tricks using midPoint Studio when working on midPoint deployments in different phases.

**Viliam Repán**

Evolveum's Senior Java Developer

This agenda is subject to change

**Evolveum**

## Sessions

1:45PM - 2:15PM

## Stream 1

### Tinder in Identity Security: Swipe Right for Unmatched Accounts

Singles in identity management - hidden, unwanted, and underestimated orphaned accounts - pose a serious security risk, inviting identity theft. Join Ondrej for quick, practical tips on how to swipe right on them.

**Ondrej Balun**

Manager at Vantum Digital Identity Services

2:15PM - 2:45PM

### Evolveum MidPoint Chatbot

Learn about the chatbot's implementation at Evolveum, including its design and challenges in extracting precise information from a dynamic, heterogeneous knowledge base.

**Michal Abaffy**

Evolveum's Senior DevOps Engineer

## Stream 2

### CI/CD with MidPoint

Learn to automate midPoint deployments in IAM environments using GitLab CI/CD, Ansible, and Docker for better scalability and consistent configurations.

**Ján Minárčiny**

Solution Architect at AMI Praha

### Secure MidPoint in OpenShift: Non-Privileged Deployments

Learn how to implement non-privileged midPoint deployments in OpenShift with secure configs, container optimizations, and practical strategies for full functionality within security limits.

**František Mikuš**

IdM Architect at Inalogy

## Break

2:45PM - 3:15PM

## Coffee Break

## Panel Discussions

3:15PM-4:15 PM

### Navigating IGA Challenges

**Moderator:**

**Martin Špánik**, Evolveum's Chief Information Security Officer

**Panelists:**

**Daniel Konzalla**, Solution Engineer at DAASI International

**Sam Clark**, Senior Infrastructure Manager - IT Engineering at Mollie BV

**Ondrej Balun**, Manager at Vantum Digital Identity Services

### Insights from MidPoint Integrators

**Moderator:**

**Slávek Licehammer**, Evolveum's Head of Engineering

**Panelists:**

**Martin Lízner**, Chief Solution Architect at AMI Praha

**Gustavo Gallardo**, Founder of Identicum

**František Mikuš**, IdM Architect at Inalogy

## Day Wrap Up

4:15PM - 4:30PM

### Wrapping Up the Day

**Igor Farinič**

Evolveum's Chief Executive Officer

### Wrapping Up the Day

**Katarína Boleman**

Evolveum's Chief Product Officer

This agenda is subject to change

# Agenda: May 13 (Tuesday)

## Day Start

8AM - 9AM

### Coffee and Networking

## Sessions

9AM - 9:15AM

### Stream 1: Introduction to IGA & MidPoint

**Chair of the Day: Richard Richter**  
Evolvium's Head of Infrastructure

### Stream 2: Feature Preview (Advanced MidPoint Users)

**Chair of the Day: Katarína Bolemant**  
Evolvium's Chief Product Officer

9:15AM - 9:45AM

### Thinking in MidPoint

Slávek will show you how to work with midPoint, not against it. Understanding the concepts makes the difference!

**Slávek Licehammer**  
Evolvium's Head of Engineering

### Configurable Paging for Collection Views

Discover enhanced collection view settings - customize pagination per table and set a global default page size for consistent data display.

**Kate Honchar**  
Evolvium's Java Developer

9:45AM - 10:15AM

### IGA - Who Has Access to What and Why?

Learn how midPoint can help you answer tough questions from auditors and management.

**Martin Špánik**  
Evolvium's Chief Information Security Officer

### Zoom In on Attribute-Level Changes

This release improves audit log usability by enabling searches based on specific changed attributes, showing only the relevant part of the delta and supporting precise, compliant change tracking.

## Break

10:15AM-10:45AM

### Coffee Break

## Sessions

10:45AM-11:30AM

### How to Manage Entitlements via MidPoint's User Interface

Ivan will demonstrate how midPoint can be configured for managing entitlements using only midPoint's user interface. The entitlements will be represented by LDAP groups and their memberships.

**Ivan Noris**  
Evolvium's Expert Identity Engineer

### Task Management: Runtime Thresholds and Enhanced Error Visibility

This release enhances task monitoring with runtime thresholds to detect long-running tasks, clearer isolation of recent errors, and improved UI visibility to pinpoint issues, even within subtasks, for faster troubleshooting.

11:30AM - 12PM

### Building Teams & Driving Project Success

Discover eBZ's journey in building their midPoint team and explore their approach and key factors behind a successful identity project.

**Guilherme Monteiro**  
Owner eBZ Tecnologia

### Streamlining Reporting and Data Export in MidPoint

We're unifying exports under midPoint's native reporting engine for a consistent, user-friendly experience. See our vision, prototypes, and plans.

**Patrik Maliňák**  
Evolvium's User Experience Designer

## Lunch

12PM - 1PM

### Lunch Break

This agenda is subject to change

## Sessions

1PM - 1:45PM

### Stream 1

#### The Latest Features in Connector Development

Explore the latest connector framework features in midPoint, including new connID contributions, examples, and benefits for enhanced functionality.

**Matúš Macík**

Evolveum's Senior Identity Engineer

1:45PM - 2:45PM

#### Panel Discussion: The Blueprint: Proven MidPoint Deployment Strategies

**Moderator:**

**Ivan Noris**, Evolveum's Expert Identity Engineer

**Panelists:**

**Gustavo Gallardo**, Founder of Identicum

**Sergey Shipilevskii**, Identity Manager at Exness

**Stephane Delcourt**, IAM Team Leader at Université de Namur

### Stream 2

#### Redesigning Approvals: A Clearer, Smarter UX for Everyone (1PM -2PM)

The midPoint approval interface is being redesigned for better usability, with role-specific views, clearer navigation, and improved status tracking. This update also sets the stage for smarter workflows and extended approval features. Join us for a preview and share your feedback.

#### Streamlining Certification for Compliance and Clarity (2PM -2:45PM)

Access certifications have been key in midPoint for ensuring appropriate access. In 4.9, we simplified reviews for managers with clearer guidance and views. Next, we're streamlining campaign creation to support more use cases and compliance needs, and considering a rebrand - perhaps to "Governance Reviews." Got a better name? We'd love to hear it.

## Break

2:45PM - 3:15PM

Coffee Break

## Session

3:15PM - 4:15PM

### MidPoint's Roadmap

Katarína will shed a light at what is her team of developers working on for midPoint 4.10, and what new features can you expect in the future.

**Katarína Bolemant**

Evolveum's Chief Product Officer

## Day Wrap Up

4:15PM - 4:30PM

### Wrapping Up the Day and Short MidPoint Community Ceremony

**Katarína Bolemant**

Evolveum's Chief Product Officer

**Radovan Semančík**

Evolveum's Co-Founder and Software Architect

## Optional Activity

6PM - 7PM

### Bratislava Old Town Walking Tour (weather permitting)

Meet Martin and Richard at the Falkensteiner hotel's lobby to walk through beautiful Old Town and get to know a little bit of Bratislava's history, culture, and fun facts!

**Martin Špánik**, Evolveum's Chief Information Security Officer

**Richard Richter**, Evolveum's Head of Infrastructure

## Networking

From 7PM

### Networking Event

Join us for a couple of drinks and snacks at Sundeck (gray boat at Tyršovo nábrežie, Port Brčko)

This agenda is subject to change

# Agenda: May 14 (Wednesday)

## Day Start

8 AM - 9 AM

### Coffee and Networking

## Session Opening

9 AM - 9:15 AM

### Opening of the Stream 1: Community

**Chair of the Day: Katarína Bolemant**  
Evolveum's Chief Product Officer

### Opening of the Stream 2: Evolveum Partners

**Chair of the Day: Igor Farinič**  
Evolveum's Chief Executive Officer

## Sessions

9:15 AM - 9:45 AM

### User-Defined Conditional Roles via GUI

Explore a feature that lets users easily define complex conditions via the GUI for automatic indirect role assignment. Learn how it's actively used by two of AMI Praha's customers.

**Jan Mokráček**  
Solution Architect at AMI Praha

### MidPoint in the Cloud

Gain insight into Evolveum's strategy for supporting institutions deploying midPoint in the cloud.

**Igor Farinič**  
Evolveum's Chief Executive Officer

9:45 AM - 10:15 AM

### The Identity Journey at the University of Duisburg-Essen

Explore the university's identity structure, as Maximillian shares insights and the challenges of mapping university specifics into midPoint.

**Maximilian Staubach**  
Identity Engineer at the University of Duisburg-Essen

### MidPoint in the Cloud: Discussion

Take part in the discussion following the MidPoint in the Cloud talk for a deeper dialogue. Feel free to ask the speaker any questions you may have.

**Igor Farinič**  
Evolveum's Chief Executive Officer

## Break

10:15 AM - 10:45 AM

### Coffee Break

## Sessions

10:45 AM - 11:15 AM

### User Password History: Best Practices & Enforcement

In this session, we'll explore how to retain and enforce password history to harden account security. You'll learn best practices for periodic password changes, secure reset via SMS, and how to leverage midPoint's expression profiles for custom tasks.

**Martin Lízner**  
Chief Solution Architect at AMI Praha

### Working Together: Insights and Opportunities

Discover key trends and opportunities, get an insider's look at Evolveum's business development strategy, and explore how you can work effectively within the partner ecosystem.

**Anna Ogureková**  
Evolveum's Head of Business Development

11:15 AM - 11:45 AM

### MidPoint in Action: Insights from NRI & Japanese Enterprises

Learn how Nomura Research Institute (NRI) manages over 50,000 users and leverages midPoint to solve complex IGA challenges while optimizing processes by using custom midPoint APIs for external system integration.

**Hiroyuki Wada**  
Chief Expert at Nomura Research Institute, Ltd.

### Small Team, Big Impact: Scaling Your Online Presence

Explore how content marketing can be your most powerful tool - even without a big budget or a huge marketing department.

**Veronika Kolpaščíková**  
Evolveum's Marketing Specialist

This agenda is subject to change

**Evolveum**

## Sessions

11:45AM-12:15PM

### Accelerating IDM Projects with Simulations

Discover how simulations revolutionized the deployment of identity management at the University of Prešov, integrating 30 systems in 4 months.

**Gustáv Pálos**

Senior IDM Architect at Inalogy

### Why MidPoint? Unveiling the Core Advantages of the Platform

Unlock identity freedom with midPoint. Join Slavek and Simona for key business and tech insights on cutting costs, boosting security, and automating IGA.

**Simona Šímková**

Evolveum's Business Development Representative

**Slávek Licehammer**

Evolveum's Head of Engineering

## Lunch

12:15PM - 1:15PM

### Lunch Break

## Sessions

1:15PM-1:45 PM

### Stream 1

#### Regulatory Compliance with MidPoint

Learn how midPoint plays an essential role in compliance with particular regulations and how it helps enhance compliance.

**Radovan Semančík**

Evolveum's Co-Founder & Software Architect

### Stream 2

#### Previous 3 Talks: Discussion

Join the discussion following the Working Together, Small Team & Big Impact and Why MidPoint talks for a deeper dialogue. Feel free to ask the speakers any questions you may have.

1:45PM - 2:15PM

### Cloud Resources with Rate Limitations

Pavol will show you how to deal with resources that are tough to access because of their low throughput, slow responses, high price, or all these things combined.

**Pavol Mederly**

Evolveum's Senior Software Developer

### Panel Discussion: Ask Us Anything

Feel free to ask the Evolveum team any questions you may have.

### Wrapping Up the Stream

**Igor Farinič**

Evolveum's Chief Executive Officer

## Break

2:15PM - 2:45PM

### Coffee Break

## Session

2:45PM - 3:15PM

### Performance Tuning of Deployments

Tony will show you the usual performance pitfalls in deployments, how to avoid them, and discuss performance aspects of MidPoint 4.9.1.

**Tony Tkáčik**

Evolveum's Backend Development Leader

## Panel Discussion

3:15PM-4:15PM

### The Value of Community Collaboration

**Moderator:**

**Slávek Licehammer**, Evolveum's Head of Engineering

**Panelists:**

**Richard Frovarp**, Principal Software Engineer at North Dakota State University

**Michael Pitra**, IT Manager at Trench Austria GmbH

**Ján Marcín**, Chief Operating Officer at Inalogy

### Wrap Up

4:15 PM - 4:30PM

### Wrapping Up the Event

**Katarína Bolemant**

Evolveum's Chief Product Officer

## Speakers

### **Michal Abaffy**

Evolveum's Senior DevOps Engineer

Michal is a software engineer, Python enthusiast, and AI/ML expert with extensive experience in innovative technologies. He is developing a chatbot that delivers IDM/IGA information to midPoint users in clear, approachable language and handles imprecise and ambiguous terminology.

### **Ondrej Balun**

Manager at Vantum Digital Identity Services

Ondrej Balun is a manager at Vantum Digital Identity Services with extensive expertise in IGA, PAM, and CIAM. With years of experience leading complex IAM initiatives across industries, he focuses on aligning security strategies with business needs.

### **Katarína Bolemant**

Evolveum's Chief Product Officer

Katarína Bolemant is one of the founding members of Evolveum. Katarína has been a crucial part of midPoint's development ever since the company's creation. Currently, she is the Chief Product Officer, and her team focuses on the continuous improvement of midPoint.

### **Tadeáš Chrapovič**

Evolveum's Java Developer

Tadeáš is a Java developer at Evolveum. His expertise includes Java, software development, identity management, and data analytics. He is currently focused on researching how AI can enhance the role management functionality in midPoint.

### **Igor Farinič**

Evolveum's Co-Founder and Chief Executive Officer

Igor is a Co-Founder and the CEO of Evolveum. He has spent the past 15 years in the identity management field and the last 10 years perfecting the midPoint platform to solve complex challenges organizations face.

### **Kate Honchar**

Evolveum's Java Developer

Kate is a Java developer at Evolveum. Her expertise spans Java, software development, and identity management, with a primary focus on GUI development, plus hands-on experience in project configuration and a solid grasp of its underlying modules and mechanisms.

This agenda is subject to change

**Evolveum**

**Veronika Kolpaščíková**

Evolveum's Marketing Specialist

Veronika drives content-focused marketing for midPoint. With more than a decade of experience, she bridges the open source identity management and governance world with organizations seeking a cutting-edge, stable platform, inviting them to explore midPoint's potential.

**Slávek Licehammer**

Evolveum's Head of Engineering

With more than 10 years of experience in identity management and governance, Slávek combines his profound knowledge and skills to efficiently solve complex questions and find the best solutions. Slávek enjoys being a part of the IAM community and frequently participates in community initiatives and meetings.

**Martin Lízner**

Chief Solution Architect at AMI Praha

Martin Lízner has over 15 years of specialized experience in the identity management industry. His expertise is not limited to architecture; it encompasses a comprehensive approach that includes in-depth analysis, hands-on implementation, and support in production environments.

**Matúš Macík**

Evolveum's Senior Identity Engineer

As an identity management and software engineer, Matúš specializes in integrating systems with IAM. He has successfully delivered numerous IAM deployments, contributed to multiple IdM connector projects, and leads training sessions in Evolveum's course portfolio.

**Patrik Maliňák**

User Experience Designer

Patrik is a UX designer at Evolveum and is dedicated to enhancing midPoint by prioritizing users' needs. He focuses on understanding user challenges and developing solutions that simplify complex tasks, improve efficiency, and make the UI both user-friendly and visually appealing.

**Pavol Mederly**

Evolveum's Senior Software Developer

Pavol has over 30 years of experience in IT. He has participated in several roles in higher education organizations. He is currently a software developer at Evolveum, where he was one of the first team members and leading figures in the development of midPoint.

This agenda is subject to change

**Evolveum**

**František Mikuš**

IdM Architect at Inalogy

František has rich experience with midPoint IdM, mainly in the enterprise environment. He has contributed the MS Graph API Connector, the Free IPA Connector, and the Adaptive SSH Connector. He is always eager to learn new things and share them with the community.

**Ján Minárčiny**

Solution Architect at AMI Praha

Ján Minárčiny, solution architect at AMI Praha, has 7+ years of IAM experience across sectors. He specializes in automation, deployment, and security using midPoint, GitLab CI/CD, Ansible, Docker, and Kubernetes, focusing on simplifying IAM implementations and automation.

**Guilherme Monteiro**

Owner eBZ Tecnologia

Guilherme has been working in IAM since the late 1990s, starting as a Tivoli Software partner. In 2013, he founded eBZ, driven by his passion for open source. A strong advocate of such software, he has led eBZ in implementing and transitioning IAM projects to open source platforms in Brazil.

**Jan Mokráček**

Solution Architect at AMI Praha

Jan is a solution architect at AMI Praha, specializing in IAM with a focus on midPoint. For 6 years, he has led IAM projects for government and corporate clients, delivering secure, efficient, and user-friendly solutions tailored to business needs.

**Ivan Noris**

Evolveum's Expert Identity Engineer

Specializing in identity management and governance, Ivan leverages 20+ years of experience through analysis, design, midPoint customization, support, and consultations at Evolveum. Ivan is also one of the authors and trainers of Evolveum's training courses.

**Anna Ogureková**

Evolveum's Head of Business Development

Anna plays a key role in expanding the global reach of midPoint. She collaborates with partners, subscribers, and the broader IGA community, ensuring organizations have the resources to make informed decisions about their IGA infrastructure.

This agenda is subject to change

**Evolveum**

**Gustáv Pálos**

Senior IdM Architect at Inalogy

Gustáv has been dedicated to IdM for over 17 years. He is a certified midPoint architect who drives the most advanced IdM challenges. His leadership and knowledge transfer are crucial for building strong, confident delivery teams, resulting in many successful IdM deployments.

**Viliam Repán**

Evolveum's Senior Java Developer

Viliam is a senior Java developer at Evolveum with more than 10 years of experience in identity management. He has a proven track record of working on multiple deployments of various sizes and addressing different challenges when it comes to software integration.

**Radovan Semančík**

Evolveum's Co-Founder and Software Architect

Radovan is a co-founder and software architect at Evolveum. He began pioneering early identity management deployments in Europe in the 2000s. With over 30 years of experience in the field, he channels his expertise into midPoint's development, with a focus on compliance.

**Maximilian Staubach**

Identity Engineer at the University of Duisburg-Essen

Maximilian is an identity engineer at the University of Duisburg-Essen. MidPoint was his entry into the IAM world and one of his first major projects. He now works on the IAM team, focusing on midPoint development and MFA.

**Simona Šimková**

Evolveum's Business Development Representative

Simona helps organizations navigate open source identity governance and administration through professional services built around midPoint. She facilitates collaboration with partners, subscribers, and the community, enabling businesses to unlock their full identity potential.

**Lukáš Škublík**

Evolveum's Frontend Development Leader

Lukáš has been working at Evolveum for over 8 years. In addition to leading Evolveum's frontend team, he has recently been involved in the development of the resource wizard and has been improving the graphical interfaces of the midPoint application and flexible authentication.

This agenda is subject to change

**Evolveum**

### **Martin Špánik**

Evolveum's Chief Information Security Officer

Martin has 20+ years of IT experience, specializing in data encryption, database monitoring, disaster recovery, IdM, and PKI. A skilled IS auditor, he has deep knowledge of security risks and environments. Currently, he is a senior identity engineer at Evolveum.

### **Tony Tkáčik**

Evolveum's Backend Technical Leader and Developer

Tony has over 11 years of experience with OSS development and governance. Previously, he developed high-performance model-driven software for provisioning network configurations. Currently, he focuses on optimizing midPoint's performance across several components.

### **Hiroyuki Wada**

Chief Expert at Nomura Research Institute, Ltd.

With 15+ years of experience and specialization in authentication, authorization, and IGA, Hiroyuki actively contributes to open source projects, including midPoint and Keycloak. He focuses on complex innovative IAM solutions, helping businesses optimize IGA and scale effectively.

This agenda is subject to change

## Sponsors

### Gold Sponsor

#### Inalogy

Inalogy specializes in integrating a range of customizable solutions based on either open source or commercial products to meet the unique needs of their customers. Inalogy integrates innovative solutions focusing on identity management, access management, privileged access management, and perimeter protection, which all help organizations safeguard their valuable digital assets.

### Silver Sponsors

#### AMI Praha

Since 1996, AMI Praha has been providing enterprise IT solutions with a team of 40+ experts. It offers professional services with a tailored approach, helping customers optimize workflows, reduce costs, and increase profits. With numerous satisfied clients and awards, AMI's vision is to develop intuitive, high-quality applications that enhance productivity and long-term success. Through innovation and expertise, AMI ensures reliable and scalable IT solutions.

#### IBA Group

IBA Group is one of the largest IT service providers in Eastern Europe, performing software development, migration, maintenance, support, and IT consulting with 3,000 IT and business professionals. IBA Group has offices and development centers in 13 countries. The main goal of IBA Group is to concentrate its expertise and experience on being able to develop products and deliver services to clients at the highest quality, faster and more reliably than others.

## About MidPoint Community Meetup 2025

MidPoint Community Meetup is an in-person gathering where Evolveum, midPoint users, and enthusiasts gather to discuss the platform and its future. The event takes place from May 12-14, 2025, in Falkensteiner Hotel, Bratislava, Slovakia, Central EU.

Join us to share your valuable insights and midPoint experience with a global audience, fostering knowledge exchange and collaboration.

[Register now](#)

Evolveum is a globally recognized EU-based organization that was established in 2011. With its dedicated team of professionals, Evolveum is the creator and maintainer of the leading open source identity platform midPoint. The feature set covering identity governance and administration makes midPoint an ideal choice for organizations seeking digital transformation to enhance security and efficiency.
